- Knowledge of the new features and functions of Clarity 8 and how they may impact your upgrade
- Public WebEx Class available at \$250 per Participant
- Attendees will be provided training environments for hands on experience

CA Clarity 8 Changes Briefing

One Day WebEx Training

Late in 2006, Computer Associated introduced its new version 8 of the CA Clarity Project and Portfolio Management software. For those companies that have been using CA Clarity 7, this new version represents a giant leap in new functionality and architectural changes. The changes are so significant that training is required to understand what has changed, how it will affect your configuration and how to take advantages of the changes. There are a number of training options to better understand of these changes that range from the most extensive (a four day intensive hands-on training offered in different locations by CA) to this one day WebEx briefing offered by Xinify Technologies. Companies may choose to participate in both training programs, starting with the Xinify WebEx briefing and then once deciding on the upgrade plan, have several key team members attend the CA four day intensive training.(note: many of the CA four day intensive training classes are taught by Xinify instructors for CA).

The course is Instructor Led Training via WebEx and takes place over a six-hour training day (three hours each in the morning and afternoon with a one hour lunch break between). Xinify instructors are highly experienced consultants that have more than five years experience with the Clarity product..

The Xinify One Day WebEx Instructor Led Training class will consist of the WebEx login, a 50 page CA Clarity 8 Changes Briefing courseware book (in electronic PDF form), and a logon to a Xinify Clarity 8 sandbox for use during the class.

Xinify offers this training as a public Webex class at \$250 per participant. Check the Xinify University section on www.xinify.com for class schedules or call 925-829-4999 for enquiries and enrollment.

Clarity 8 Changes Topics
